

isolera TUB SEALING TAPE

Self-adhesive sealing tape for permanently elastic sealing of shower and bath tubs

Characteristics:

Double-sided fleece-coated, highly elastic sealing tape with self-adhesive butyl strip. The capillary protection strip made of smooth NBR rubber prevents the permanently elastic seal from running behind. An excellent bond with all waterproofing materials used under tiles, such as polymer dispersions, mineral, flexible sealing slurries as well as reaction resin sealants, is made possible by the fleece coating.

Areas of application:

For universal sealing of enameled steel and plastic shower trays and bathtubs.

Technical data:

Application temperature: from + 10 C°

Thickness sealing tape: 0,6 mm

Width sealing tape: 100,0 mm

Width adhesive tape: 30,0 mm

Preparation of the substrate:

Thoroughly clean the tub edge with a suitable cleaning agent. The substrate must be dry and free of dust and grease.

Processing:

Cut the sealing tape to the required length. Pull off the silicone strip piece by piece. Stick the sealing tape to the tub edge without folds, paying particular attention to full-surface adhesion of the butyl strip. Apply the sealing tape without butt overlaps. After the sealing tape has been completely applied to the shower or bathtub, it can be installed. Then work the protruding edges of the sealing tape into the composite seal.

Notes for follow-up work:

The sealing tape is compatible with commercially available dispersions, mineral flexible sealing slurries and reaction resins. A compatibility test should be carried out before applying other products.

Cleaning of the working tools:

Clean tools and soiled areas with water immediately after use.

Storage:

Shelf life 24 months when stored dry in the package.

Hazard information:

Not a hazardous substance as defined by the Ordinance on Hazardous Substances.

Disposal:

Leftovers and packaging can be disposed of through the Green Dot via the Dual System Germany.

Form of delivery:

Art.-Nr. 11083-2

Width: 100 mm roll á 2 m

1 Roll /Box

Art.-Nr. 11083

Width: 100 mm roll á 4 m

1 Roll /Box

Art.-Nr. 11083-10

Width: 100 mm roll á 10 m

1 Roll /Box
